Premium World – the big extravaganza

The best days of our lives – wedding, trip to the opera, fancy clothes – and to match this CLASSEN Premium World provides the ample array of a highend collection.

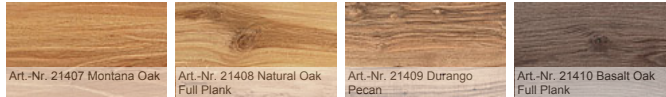

Perfect laminate flooring, manufactured with superior artistry: The finish is shown as a perceptible layer on the surface of the floorboard. With or without a continous bevel remains a question of your personal taste.

For flooring with a planed effect, the appearance of freshly planed young boards that were installed right away was replicated. The softer bevels become compacted, little by little, as people walk on the floor.

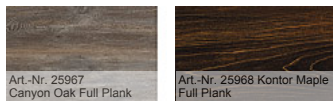

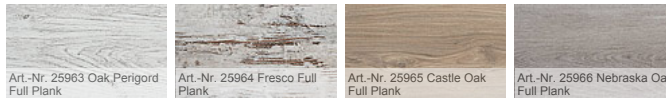

8mm effect structure AC4 (with bevelled edge)

8 mm handscraped AC4 (with bevelled edge)

6" effect structure AC4 (without bevelled edge)

Style World – simple and ingenious

CLASSEN Style World lives up to its name. In this collection, you will find select high-quality finishes with a flooring thickness of seven millimetres.

However, the real sensation is the novel CLASSEN megaloc gluefree installation system which is intrinsic to all CLASSEN brand laminate flooring and which has virtually revolutionised the installation process. A floor has never before been laid so incredibly quickly and simply.

Floors in the CLASSEN Style World range have a finely textured structure and are recommended for private residential use, featuring utilisation class 31/3.

CLASSEN Style World – modern and open minded.
